PIPER FATIGUE SCALE (PFS)

Directions: Many individuals can experience a sense of unusual or excessive tiredness whenever they become ill, receive treatment, or recover from their illness/treatment. This unusual sense of tiredness is not usually relieved by either a good night’s sleep or by rest. Some call this symptom “fatigue” to distinguish it from the usual sense of tiredness.

For each of the following questions, please fill in the space provided for that response that best describes the fatigue you are experiencing now or for today. Please make every effort to answer each question to the best of your ability. If you are not experiencing fatigue now or for today, fill in the circle indicating “0” for your response. Thank you very much!

1. How long have you been feeling fatigue? (Check one response only).
   - [ ] not feeling fatigue
   - [ ] minutes
   - [ ] hours
   - [ ] days
   - [ ] weeks
   - [ ] months
   - [ ] other (Please describe) ________________________________
